Re: Request for Information from Annual Appropriation Committee Hearing

ID: 236

The attached information is in response to questions posed at our department's hearing on Friday, October 19 to discuss the 2013 budget.

Alderman Brendan Reilly asked for information about revenues from the 50% upfront fee now collected for permit applications. To date, the department has collected \$13.5 million in Standard Plan Review permit fees, we estimate roughly 50% or \$6.75 M, represents the "up front" amount.

In terms of how much of that would not have been collected without this policy, this will best be determined at year's end, by seeing which projects have not been completed. Projects that have not been completed by the end of 2012 could still be completed at a later date.

As always, please let me know if you have any further questions.

The attached information is in response to questions posed at our department's hearing on Friday, October 19 to discuss the 2013 budget.

Alderman Brendan Reilly asked for the status of illegal billboards and where they are in the enforcement process in his ward. Further, he asked how many billboards have been removed from his ward since the last budget hearing, in 2011. Currently, there is no tracking system in place to determine if compliance is the result of a sign being removed or a permit being obtained. The lengthy process it would take to manually prepare such a list will be alleviated in January 2013 when the department will implement a tracking system that will capture the compliance method.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID: 47

The attached information is in response to questions posed at our department's hearing on Friday, October 19 to discuss the 2013 budget.

Alderman John Pope asked for the number of board up's and demolitions in his ward for 2012, 2011 and 2012, and their funding sources. In 2011, the department boarded a total of 22 and 26 buildings in 2012.

The department board up funding allocation has historically come out of Community Development Block Grant (CDBG). In 2011, this funding was reduced to \$250K from \$500K in prior years, due to the reduction in CDBG funds. For 2012, this allocation was further reduced to \$100K. To offset this reduction in funding, the department set aside an estimated \$1.5M of our demolition budget to cover these expenses in 2011 and it is anticipated that 2012 board up expenses will remain level at \$1.5M.

As always, please let me know if you have any further questions.

The attached information is in response to questions posed at our department's hearing on Friday, October 19 to discuss the 2013 budget.

Alderman Tom Tunney asked for a listing of the signs that have received a citation in his ward and the revenue amount budgeted for these dollars. Currently, there is no tracking system in place to determine if compliance is the result of a sign being removed or a permit being obtained. The lengthy process it would take to manually prepare such a list will be alleviated in January 2013 when the department will implement a tracking system that will capture the compliance method.
